

THE DOCUMENTS FOR

*THE SECRET NETWORK
HELPING BIDEN FUEL
THE BORDER INVASION*

Glenn TV | EP 329

Wednesday, January 24, 2024

The Supreme Court just ruled 5-4 allowing *the feds* to dismantle border protections put in place by the State of Texas.

- It's almost like a Spaghetti Western.
- Texas lawmen, *for three years*, have been forced to sit back and watch as *the feds* refused to enforce immigration law.
 - <https://apnews.com/article/supreme-court-immigration-texas-razor-wire-9daef6bd316211b6633ece718e505187>
- And Texans have had enough.
- They put their own troops on the ground and enforced the border with *their own* security.
- In any *sane* world, the federal government would *welcome* the additional help.
- From manpower to other resources, securing the border costs a lot of money.
- Why wouldn't the government accept this gesture with open arms?
- Why would the Feds sue Texas to *regain* the ability to allow *record number of illegals* to pour through the border?
- Where does this lead, and how far will both Texas and the federal government go in this fight?
- There is something *much bigger* going on here.
- There is a global push—and focus—within the globalist agenda for enabling the mass migration of illegal immigrants, and the Biden Administration is fully in line with it.
- Let's start with a couple of pictures from *Texas* on our Southern Border.
- This link will show you group of illegals after they crossed the Southern border.
 - <https://www.facebook.com/VVBHC/posts/pfbid07hXsJEnXfs1L2UUPXYw39A6uUBC3suC7t424eF1Sf1CnZmdmhdz9aoG4BahF7JI>
- Those little green bracelets are from the Border Patrol.

- The government processes the illegals, slaps these little bracelets on them, *then* drops them off at a nearby NGO where they all go *poof*, into the ether.
 - The left photo is from a local Texas NGO.
 - And the right photo is what happens to the bracelets.
 - They're cut off, thrown in the trash, and the illegals are bussed out all over the country.
 - This is not how serious countries operate.
 - This is not how global superpowers remain superpowers for long.
 - This is how the United States of America is currently being transformed into something entirely different... and it's currently happening by the *thousands* every day.
-

This is what we *are really* fighting on our Southern Border.

- We all thought illegal immigration was bad back in 2016, and Donald Trump probably wouldn't have been elected if not for that issue.
- We thought we were at crisis level, but what was happening back then is *nothing* compared to what's going on now.
- We are fighting a well-organized, *globally funded*, transformation of our country.
- Border numbers last month hit *another* record... 300,000.
 - <https://www.voanews.com/a/huge-number-of-migrants-highlights-border-crisis/7424665.html>
- It's the largest number ever recorded.
- Numbers combined from the first three months of this fiscal year... are *also* a record.
- Record-shattering numbers of illegals is no longer the question.
- The question *now* is how badly the next month will shatter the numbers from the last... and then the month after that... and the month after that.

- There are about 99 reasons you could impeach Joe Biden, but the border might be the biggest... and that's saying quite a lot given this dumpster fire of a presidency.
- Here's Biden a few days ago on who's *really* to blame.
 - <https://twitter.com/RNCResearch/status/1749066112497512526>
- He doesn't even know what he's talking about. This is embarrassing.
- And since when does his party and administration actually think the border isn't secure?
- That hasn't been their standard talking point.
- "It's not a crisis"... "the border isn't open"... "it's secure." Remember that?
- Throwing more money at the border isn't going to work.
- You know what would work? Actually enforcing the law!
- The truth is now so painfully obvious that it is pretty much agreed upon by the bluest states in the country.
- Within Biden's *first few days*, he wiped out everything Trump did to secure the border.
 - <https://twitter.com/SpeakerJohnson/status/1748819246463754447/photo/1>
- This is the *reality* of what we are facing.
- This link will show you a Mexican town at a crossing to Arizona.
 - <https://twitter.com/michelleriveraa/status/1740901268049240522>
- It's an absolute *war zone*, and it's right on our border.
- A local told Fox News that "This is all because of the amount of migrants arriving to this town."
 - <https://www.foxnews.com/world/cartel-human-smuggling-business-turning-entire-border-towns-war-zones>
- The report goes on to describe how the cartel charges each illegal \$2,000 each before they cross.
- A cartel member told Fox:
 - "No one wants to work on anything else right now. Everyone wants to work with the migrants because you can make a lot of

money from it these days and it is easy work... Right now it is more profitable to smuggle migrants than to traffic bricks of cocaine, and with less risk if you get caught."

- In December, Congress revealed that Mexican cartels made \$13 *billion* from human smuggling... just in 2021.
 - <https://homeland.house.gov/2023/12/14/now-nobody-crosses-without-paying-senior-border-patrol-agents-describe-unprecedented-cartel-control-at-southwest-border/>
 - And that was *before* we began seeing record shattering numbers month after month.
-

Why are Democrats so intent on helping Mexican cartels make billions?

- Could it possibly be that, despite the political maneuvering, illegal immigration is a BIG business?
- The Mexican government issues transit visas to illegals that grants them 30 days to cross Mexico en route to the U.S.
 - <https://www.fairus.org/biden-immigration-border-policy/mexico-demands-money-and-visas-return-immigration-enforcement>
- The Mexicans *know* what the cartels are doing.
- The head of their FBI was just caught taking *millions* in cash bribes from the Sinaloa Cartel.
 - <https://www.justice.gov/usao-edny/pr/ex-mexican-secretary-public-security-genaro-garcia-luna-convicted-engaging-continuing>
- Their *defense secretary* was recently arrested here in the U.S. for working with the cartels.
 - <https://apnews.com/article/mexico-obrador-military-drug-trafficking-854bba46f715fbb9211937b7e07bc0a5>

- If you're curious how far up the ladder the corruption goes in the Mexican Government, they lobbied to get him *released*... and it worked.
 - How did we allow that?
 - Could it be that *our* government is also making money off this as well?
 - It turns out, there's a history of agencies in the United States working with the cartels.
 - Remember CIA/Contra?
 - <http://www.cnn.com/US/9811/03/cia.drugs/>
 - But who's all in on the complete redesign *and invasion* of our country?
 - It's a global operation *with billions* of dollars involved.
 - It's pushed from places like Davos, the United Nations, and a laundry list of global—and regional—NGOs moving towards one single goal.
-

For the global elites, mass illegal migration is about two things.

- First, they want to *flood* developed countries with unsustainable levels of migrants to even out the top GDP earning countries of the world.
- Standards go down, and the exceptional become... mediocre.
- And second, there's a *lot* of money involved.
- Especially if you're a corrupt FBI head or Defense Secretary in Mexico.
- How many more *similar* government officials are in other countries?
- How many are *here* in ours?
- The money trail goes all the way to the top of globalist elite society.
- January is World Economic Forum month, and they have been some of the biggest drivers for mass migration all over the world.

- Back in June, and leading up to their current annual forum, the WEF said that it was “time to rethink migration.”
 - <https://www.weforum.org/agenda/2023/06/migration-immigration-refugees-worldbank/>
- The globalists decided they needed to “*reframe*” the narrative, and in doing so they concentrated on economics and demographics.
- It was all a ruse to enlist private businesses to *partner* with governments all over the world.
- In another WEF article, *this month*, they state that the IOM (the UN’s International Office of Migration) “cannot and should not do this alone.”
 - <https://www.weforum.org/agenda/2024/01/migration-model-sustainable-development/>
- So, we have globalists at the WEF pushing the mass movement of populations all over the world.
- They’re enlisting private businesses to help them, and they’re working in parallel with the United Nations.
- Who else is involved?
- Muckraker.com recently obtained *actual maps* that Doctors Without Borders supplies to illegal migrants in South America.
 - <https://twitter.com/realmuckraker/status/1738684394259316942/photo/1>
- The map shows rally and meet up points all the way down in Panama.
- Look at the different points going up through Costa Rica.
- It shows where illegals can find hotels and food the entire route.
- Who’s paying for this stuff? Is it Doctors Without Borders?
- Who gives *them* money?
- Per their website, some of their corporate donors are Google, Microsoft and Bloomberg.
- Are *they* knowingly funding this? Is this what the WEF’s call to private business bought them?
 - <https://www.doctorswithoutborders.org/get-involved/ways-to-give/corporate-giving/our-corporate-supporters>

- Going back to their map, *detailed* routes are charted directly into Mexico, but Mexico obviously isn't the final destination.
- Their *next* map shows detailed routes all the way through Mexico—complete with medical, food and housing stops—directly to crossings at the U.S. border.
 - <https://twitter.com/realmuckraker/status/1738684394259316942/photo/2>
- Do Doctors Without Borders know that they are contributing to human trafficking?
- Do they know that the cartels are making \$2,000 a head for each illegal migrant?
- Do they know that terrorists could be using these routes, with all of this infrastructure, to infiltrate our country?
- Perhaps they don't care.
- Doctors Without Borders has a *strange* relationship with terror groups.
- A statement they released on Humanitarian Negotiations revealed they “Paid an Al Qaeda-affiliated militia a \$10,000-per-project registration fee to continue working in Somalia.”
 - <https://www.smithsonianmag.com/innovation/the-big-dilemma-facing-doctors-without-borders-4946758/>
- Are we really to believe that their nifty little maps aren't enabling terrorists?
- Muckraker *also* obtained this map.
 - <https://twitter.com/realmuckraker/status/1738684396457066542/photo/1>
- This is from the UN's International Organization of Migration (IOM).
- Each of the dots represents consulates and commissions that migrants can navigate between on their way up to the United States.
- From the IOM's website, they believe that *now* is the time to “Harness the Power of Migration.”
- Isn't this supposed to be about helping the oppressed people of the world?
- This kind of sounds like some ulterior motive doesn't it?

- Check this out: “It is clear that the Sustainable Development Goals cannot be reached without safe, orderly and regular migration.”
-

This is *really* about Agenda 2030 and the Great Reset.

- Who funds this transformation of American life, culture, and society through the UN?
 - <https://www.iom.int/donor-relations>
- No one gives more than the United States of America.
- This next map from Muckraker was distributed by the Red Cross.
- It shows freight train routes where illegals can hop aboard and ride all the way to the U.S.
- Well, all the way to the cartels, who charge \$2,000 for them to cross.
 - <https://twitter.com/realmuckraker/status/1738684402069098797/photo/1>
- And who are the biggest funders of the Red Cross?
 - <https://www.redcross.org/donations/companies-and-foundations/fall-donations-corporate-supporters.html>
- American Airlines, Walmart, Walgreens, Coca-Cola, Fox Corp, Target... and on and on.
- But what happens *after* the illegals arrive at the border, pay off the cartels, then cross the border?
- The answer is both shocking and infuriating.
- Under Joe Biden, the Border Patrol processes the illegals and then *mostly* releases them to NGOs.
- It is at this point that they go *poof* into the ether of this country.
- The Heritage Foundation recently tracked cell phone activity of migrants crossing the border and going to some of these private NGOs.
 - https://thf_media.s3.amazonaws.com/2022/BorderNGOMemo.pdf

- These cell phones revealed activity at major immigration NGOs in border states all across the Southern border.
- The migrants are then placed on busses then spread out all over the country.
- Look at this map. It shows the routes illegals take, *including* their destinations.
 - https://thf_media.s3.amazonaws.com/2022/BorderNGOMemo.pdf
- We are being *invaded*.
- The Val Verde Border Humanitarian Coalition is one of the main NGOs moving illegals into the country.
 - <https://vvbhcoalition.wordpress.com/>
- This is a normal day at this NGO in Texas.
- Crowds of illegals waiting on their bus somewhere in the United States.
 - <https://www.facebook.com/photo?fbid=795167879323302&set=pcb.795173849322705>
- Remember that border numbers are shattering records *every month*.
 - <https://www.facebook.com/photo/?fbid=782395673933856&set=a.493708322802594>
- Where are all these people going? Where are they from?
- Besides South America, these busses host illegals from:
 - Africa
 - <https://www.facebook.com/VVBHC/posts/pfbid0haLPP5hYqx9SEAvBvaftVxkHX5X1hUDaqkyVERufMtonmpjWkGePCPnjunma79nNI>
 - China
 - <https://www.facebook.com/VVBHC/posts/pfbid02GQjvjCmVkeNoPsWwD5KUfcoMjsmi8d2GcW3f5V8X1aRFQw7C3YVA1Z5SsQFy7y5dl>
 - Russia
 - <https://www.facebook.com/VVBHC/posts/pfbid02Z8rWBW5WThGA3V1reLk6oFaJqFGKfPBgLeok5w1YGRZMFQK6qd7d9xVa8doSdnUCI>

- And on and on and on.
- Before Texas began directing these buses to Blue States and cities, it wasn't clear where they were all going.
- The political maneuver appears to be working.
- Democrats in their strongholds are beginning to witness the pain that border states have been feeling.
- Where will all of these illegals ultimately end up?
- Glenn recently did a documentary for BlazeTV on the land development that houses *thousands* of illegals just outside of Houston at Colony Ridge.
 - <https://blazetv.com/blazeoriginals>
- Will *that* reality ultimately become the reality in states all across the United States?
