## The Most **Radical** Soundbites They Don't Want You To Hear

**Kamala Harris is the most far-left, radical Democratic candidate** for president in the history of the United States. Once ranked the most liberal Senator in the U.S. Senate, Harris has staked out extremely progressive positions on border security (or lack thereof), immigration, healthcare, fracking, education, energy, and more. And, because she's an opportunist, she's flip-flopped on nearly every issue.

"I support a Green New Deal and I will tell you why: climate change is an existential threat to us and we've got to deal with the reality of it."

Kamala **supports a Green New Deal**

"I know what a crime looks like and I will tell you that an undocumented immigrant is not a criminal."

Kamala **supports open borders**

"I believe we need to look locally and elect progressive prosecutors. Because the vast majority of prosecutions occur at the state and local level."

Kamala **supports soft-on-crime policies**

"We have confused the idea that to achieve safety we need to put more cops on the street — we really do need to understand and reimagine how we can make and help make communities safe."

Kamala **supports Defund the Police**

"I'm absolutely open to it."

Kamala **supports expanding the SCOTUS**

"Let me just be really clear about this. I'm opposed to any policy that would deny in our country any human being from access to public safety, public education, or public health — period."

Kamala **supports universal healthcare and public education for illegal migrants**

Kamala **supports an end to fossil fuels**

"We must have the courage to object when they use that term 'radical Islamic terrorism.' ... We also have to have the courage to reject that term 'illegal alien.' I have seen some of the worst of criminal behavior, I have seen the worst of crime. An undocumented immigrant is not a criminal."

Kamala **doesn't want you to say 'radical Islamic terrorism' or 'illegal alien'**

"We must have the courage to stand up for our immigrants, including ten million people living and working in the shadows, with a genuine pathway to citizenship."

Kamala **supports mass amnesty**

"My plan will separate your healthcare from your employer, meaning your employer will no longer dictate the kind of healthcare you receive. Under my plan of Medicare for All, private insurance companies will be able to provide coverage if they play by our rules."

Kamala **supports Medicare for All and the end of employer-based health insurance**

Kamala **thinks AOC is fantastic**

"We have a problem in America. We can talk about the amount of sugar in everything. We can talk about soda — we can go on and on."

Kamala **supports controlling your diet**

"I'm prepared to take executive action and put in place a ban on the importation of assault weapons ... But we still have to deal with over two million assault weapons that are currently on the streets of America. So, a buyback program is a good idea."
