A Day without Capitalism

IMAGINE TAKING A DAY OFF FROM WORK IN A FUTURE WITHOUT CAPITALISM.

It might not feel as badly needed as it does now. You enjoy your work; it's interesting to you, and you're well trained for it. You work as much as you are able and no more than needed, and you would control your own labor and see it going to good use. It's not just a job to pay the bills.

Speaking of bills: you don't really have them anymore. You have no debt. You don't need health insurance. You don't pay a mortgage or have a landlord, because comfortable housing is a human right. Your retirement is publicly funded. Food, education, energy, medicine, and transportation aren't for-profit businesses; they are common goods and utilities.

OK, enough about bills. What do you do on your day off? Maybe in the morning, you walk your kids to school, run errands, or go to a doctor's appointment. In the afternoon, you might play a sport, practice a new skill, read, plan a trip. In the evening, you could meet up with friends or family and eat together, maybe go to the movies or down to the park.

These are all familiar, everyday activities. A socialist day off could be like any good day now. But what if you were free to spend your time how you like without worrying about cost or dreading going back to work? What if you didn't have to think about paying rent or loans at the end of the month, or saving for college, or affording groceries? What would that be like?

It's been said that it's easier to imagine the end of the world than it is to imagine the end of capitalism. But just because it isn't easy to imagine now doesn't mean we shouldn't try to make it happen.

Workers deserve more. 

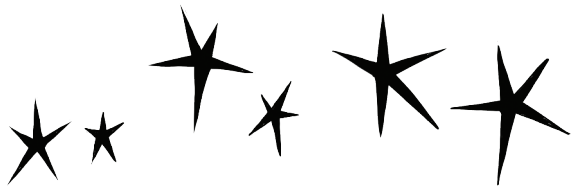

Our Perspective

The world is in chaos, but for the bosses, it's all going according to plan. We can see their plan in the countless heartbreaking images coming out of war zones like Beirut, Gaza, and Tehran. We can hear it in the rumble of bulldozers making way to build detention camps and data centers. We can feel it in the air as the summer heat becomes unbearable, and in the pits of our stomachs when faced with the price of gas and rent. We're promised magical technology with AI, but in reality, the bosses lay us off and track our every move. The billionaire class is dividing workers against each other, and it's making us desperate and miserable.

HOW DID WE WIND UP HERE?

The political and economic system under which we live is built on private ownership and profit at all costs. As capitalism fails to solve problems of its own making, it turns to right-wing authoritarianism. Big business makes deals with the government to line their pockets, and politicians stoke hatred between working people. Instead of offering real solutions to unemployment and the cost of living, they attack immigrants, communities of color, and trans people. Rather than fixing our broken healthcare system, they push snake oil and circulate conspiracy theories. The Republicans are in on it, the Democratic Party is asleep at the wheel, and both are funded by the same criminal class of billionaires and war profiteers.

DEMOCRATIC SOCIALISTS KNOW THAT NO ONE HAS TO LIVE LIKE THIS.

If we lived in a classless society and governed ourselves, we could freely build a world without war or poverty. We could build a world where no one suffers for their race, gender, or religion, and everyone is free, equal, and cared for. Building this world is the guiding star of our movement. When we labor for our common good instead of private profit, we can all have a secure and dignified life, and use our time and talents how we wish.

To achieve this future, our class must organize. The Democratic Socialists of America is building a party whose goal is a democratic society of the working class. Our enemies are not just individual bosses, but the entire global system of capital; not just this or that cop, judge, or president, but the entire anti-democratic structure of our society. We are workers fighting to transform society: to win the battle for democracy, draft a new constitution, and create a democratic socialist republic.

DSA has written this program for ending capitalist oligarchy and creating a real democracy. Some of these demands may be won under our current system, but we know complete victory will require building a new society from the ground up. We push these demands to their furthest extent today, so we can fight for their fullest realization in a socialist future. Join us.

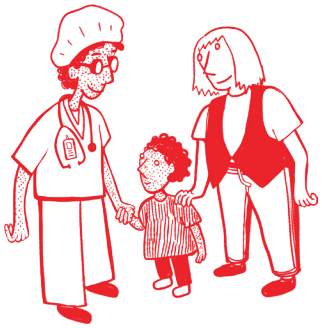

What We Fight For

Thriving Working-Class Communities

FREEDOM TO FLOURISH

Expand public resources to support recreation, learning, and social spaces accessible to all. Establish paid family leave for all workers, a 32 hour work week with full pay and benefits, and a living minimum wage. Provide free, quality public education from pre-K to college and cancel all student debt.

HEALTHCARE FOR ALL

Guarantee universal healthcare at no cost to individuals, including complete access to reproductive and gender-affirming care. Expand healthcare access and quality by investing in new public hospitals and clinics. Make all medical education and training public and free.

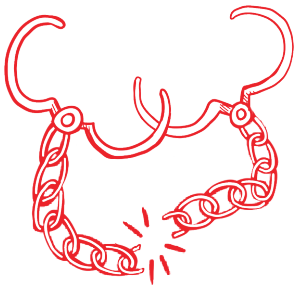

HOUSING FOR ALL

Housing is a human right. Build new, publicly-owned social housing, strictly regulate investment properties, establish universal rent control, and guarantee right to counsel for all tenants.

FINISH RECONSTRUCTION

End the legacies of slavery and colonialism. Reinforce anti-discrimination laws. Honor all treaties and tribal sovereignty. Enact reparations and massively invest in good jobs, quality housing and infrastructure in neglected minority communities.

END MASS INCARCERATION AND POLICE IMMUNITY

Demilitarize police departments, disempower police unions, and redirect funding to public services as steps towards fully abolishing the police and prison system which protects the rich and jails the poor. Treat drug addiction and mental illness as health issues, not crimes. End qualified immunity and empower civilian oversight bodies with real authority over the police.

GREEN NEW DEAL

Workers must lead our democratic transition to a green future. Pass a federal jobs guarantee. Implement massive investment in sustainable, publicly owned energy and transit infrastructure. Phase out the use of fossil fuels. Reclaim and repair our earth's resources for all.

FEMINISM FOR ALL

Socialist feminism fights for queer liberation and the freedoms of all working class women. Stop gender violence and end policies that oppress bodily autonomy and intimate life, including patriarchal restrictions on abortion, childbirth and childraising, gender expression and transition, marriage, and divorce. Ban sex discrimination and ensure fair compensation and support for all forms of labor, including care work.

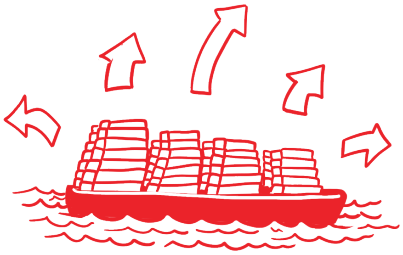

Working-Class Foreign Policy

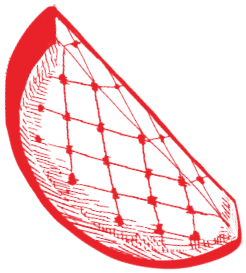

END THE U.S. WAR MACHINE

Defund the Department of War. End all foreign wars and close overseas military bases. Support and fully employ veterans. End immunity for U.S. war criminals and support the International Criminal Court's mandate to prosecute war crimes.

END BLOCKADES, EMBARGOES, AND SANCTIONS

People around the world deserve to live their lives without U.S. interference. End economic warfare against countries whose governments act independently of the United States, such as Cuba, Venezuela, and Iran.

FREE PALESTINE

Recognize the rights of the Palestinian people, including the right of return, the right to resist military occupation, and the right to self determination in a free Palestine with Jerusalem as its capital. End all military and economic aid to Israel. Prosecute U.S. and Israeli leaders responsible for the genocide in Gaza.

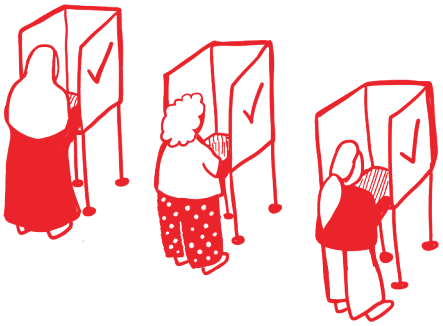

ABOLISH ICE

End ICE detention and deportations and punish federal agents' brutality. Legalize migration, grant amnesty for all immigrants regardless of status, provide a path to citizenship for all permanent residents, and end visa caps and quotas.

Working-Class Democracy

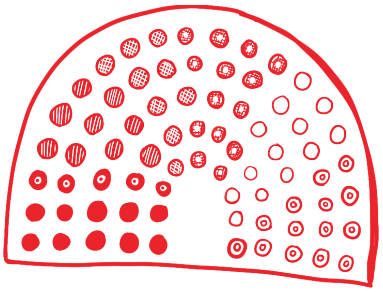

DEMOCRACY FOR ALL

Extend full voting rights to all permanent U.S. residents and restore the right to vote for incarcerated people and people with criminal convictions. Establish statehood for Washington D.C. and recognize the right to self-determination for all U.S. territories and colonies. Expand and protect voting rights and end voter suppression.

A REAL DEMOCRACY

For the working class to govern, we need a new political system. End political corruption and legalized bribery: get rid of lobbyists, dark money, and Citizens United, and publicly finance all elections. Abolish the Electoral College. Replace the President and Supreme Court with an executive and judiciary chosen by and subordinate to Congress.

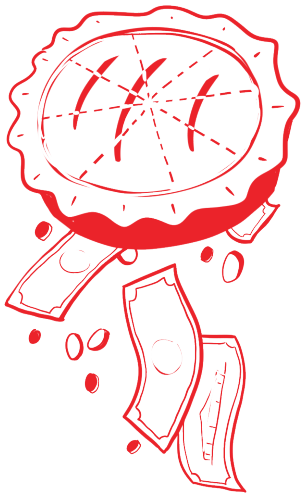

A DEMOCRATIC CONGRESS

Replace the two-party system with a multi-party democracy. Expand the House of Representatives, implement proportional representation and ranked choice voting in all elections, and abolish the Senate.

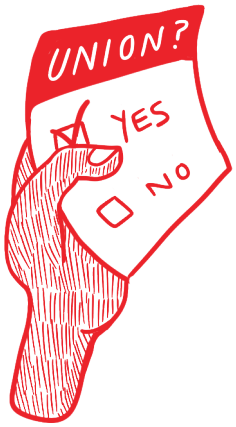

ECONOMIC DEMOCRACY

Establish public ownership of the largest corporations and essential industries to ensure democratic control and accountability to the people. Enact aggressive wealth taxes on the richest individuals and corporations to spend on public goods and infrastructure.

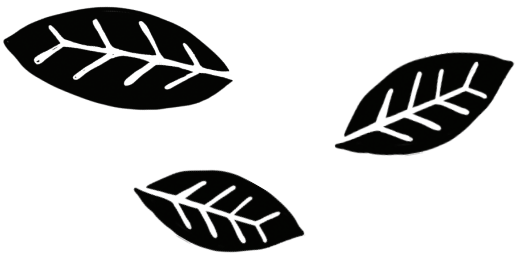

DEMOCRACY AT WORK

Empower workers to come together and fight the boss. Protect, expand, and enforce the rights of all workers to form, join, and strike with their unions, regardless of industry. Support union members who organize reform caucuses, democratize their unions, and take political action.

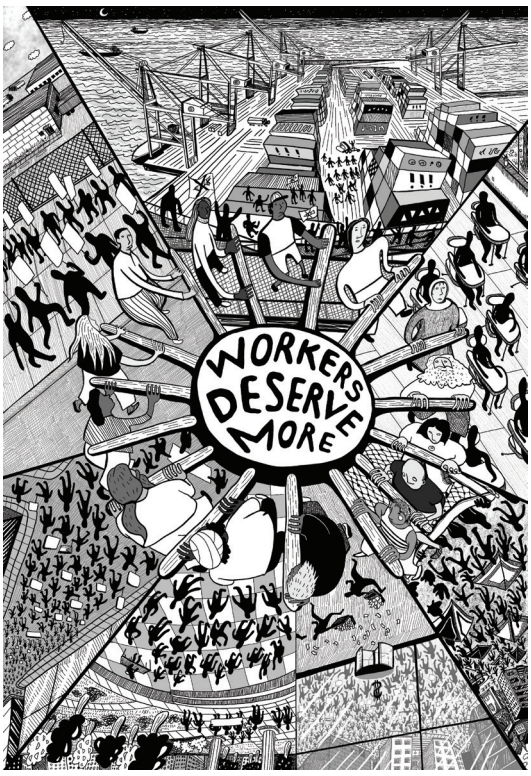

Authors' Note

Our program was drafted between the months of April and June 2026 by a committee of DSA members, elected through a process established by DSA's 2025 National Convention. The program committee included members of DSA's National Political Committee (NPC), leaders of national committees, and rank and file members, representing the political breadth of our big tent organization. We met most weeks to write, discuss, debate, structure, and edit until we submitted our draft to the NPC to amend, finalize and approve. The website, artwork, print layout, and communications for Workers Deserve More were 100% made and designed by us and other DSA members from all over the country.

We couldn't be more thrilled to see our collective human labors, born of our comradeship and commitment to our movement and our political home, the Democratic Socialists of America, go out into the world. Solidarity!

WORKERS DESERVE MORE!
